

A T O M S

The Advanced Training for Outstanding Mathematics and Science (ATOMS) Scholars Program will occur this summer through Appalachia Intermediate Unit 8. These are hands-on, high level, intensive STEM experiences for interested students who will be completing grades 2 through 8 this school year.

Online Registration is now OPEN

- Costs are as follows:
 - A three-day mini-program - \$115
 - A five-day basic program - \$155
 - Costs can be subsidized by financial aid if appropriate paperwork is provided by the family. Student scholarships are received from area businesses.
- The online application form should be completed by the parent. Following this, we will communicate with your child's school district for eligibility input. School officials will be contacted and strongly encouraged to write specific comments regarding the student's eligibility for this program. In many cases, final determination of acceptance into the program is based on the school recommendation. Comments are always confidential.
- Selection for this program is competitive and your child's admission is not guaranteed. Class size is limited to a maximum of 15 students and the number of classes at each site depends on teacher availability.

Application deadline to be considered for placement in the program is March 21st, 2018.

For more information please visit www.iu08.org/atoms

If you encounter any difficulties with this registration process please contact Ellen Koontz at ekoontz@iu08.org or (814) 940-0223 x1346
